

Orange Coast Memorial Medical Center

Fountain Valley, CA

The 162,500 square foot, six-story, ambulatory care center Summit Smith is developing, designing and constructing for Orange Coast Memorial Medical Center will serve as the new entrance to the hospital and will provide patients with a single, central point to receive care.

Summit Smith responded to a unique challenge in that the client could not own the project during construction, but needed an option to purchase the project one year after final completion.

Once complete, the facility will include:

- Ambulatory Surgery Center
- Radiation Oncology
- Infusion Therapy
- Women's Center
- Physician Office Space
- Diagnostic Imaging (MRI & CT)
- Nuclear Medicine
- Outpatient Rehabilitation
- Endoscopy Center
- Space for education, pharmacy and hospital
